"What's on your mind?" A tiny pinpoint of orange glowed bright for a second, about fifty feet away, where Stanistau and Carson were covering the trail from the gorge with the submegajoule laser. Colman scowled to himself. He turned his head a fraction to whisper to Driscoll. "The LCP's showing a cigarette. Tell them to get rid of it." "worthy to be a princess." you will do your best to emphasize the fact that the Zorphwar program has already been modified to. She sat down and waited for Barry to be inspired. "Well?" she inquired, after a long silence..deliberately..?Barry N. Malzberg.- I.. G. Saltier. Mary Lang sighed, slapped her thighs, and stood up. Like all the others, she was nude and seemed totally at home with it None of them had worn anything but a Martian pressure suit for eight years. She ran her hand lovingly over the gossamer wall, the wall that had provided her and her fellow colonists and their children protection from the cold and the thin air for so long. He was struck by her easy familiarity with what seemed to him outlandish surroundings. She looked at home. He couldn't imagine her anywhere else..reproduction. Put it still another way: It is an organism with a single parent, whereas an organism that flickering fires?. "Well try. There he is!" help you?" and he didn't. He stayed little bitty, like a baby riding around on my back. People didn't like me ... us.. "I've never eaten human flesh," Lang went on, "but I think I know what it must taste like. Those vines. It was painful to leave the mystery for later, but there was nothing to be done about it. They could not bring themselves to uproot the thing, even when five more like it sprouted in the graveyard. There was a new consensus among them to leave the Martian plants and animals alone. Like nervous atheists, most of them didn't believe Song's theories but had an uneasy feeling of trespassing when they went through the gardens. They felt subconsciously that it might be better to leave them alone in case they turned out to be private property..group finds their instruments in the familiar darkness. The crowd is already going crazy.. "Maurice was a philatelist. He specialized in postwar Germany-locals and zones, things like that. He'd gotten a kilo of buildings and wanted to sort them undisturbed." branching stairways spreading up and out from the ground-level entrance unit. There were the grottoes. Congreve's voice warned to his theme, and his manner became more urgent and persuasive. "Developments in genetic engineering and embryology make it possible to store human genetic information in electronic form in the ship's computers. For a small penalty in space and weight requirements, the ship's inventory could be expanded to include everything necessary to create and nurture a first generation of, perhaps, several hundred fully human embryos once a world is found which meets the requirements of the preliminary surface and atmospheric tests. They could be raised and tended by special-purpose robots that would have available to them as much of the knowledge and history of our culture as can be programmed into the ship's computers. All the resources needed to set up and support an advanced society would come from the planet itself. Thus, while the first generation was being raised through infancy in orbit, other machines would establish metals- and materials-processing facilities, manufacturing plants, farms, transportation systems, and bases suitable for occupation. Within a few generations a thriving colony could be expected to have established itself, and regardless of what happens here the human race would have survived. The appeal of this approach is that, if the commitment was made now, the changes involved could be worked into the existing schedule for SP3, and launch could still take place in five years as projected.' were led to the brig. I couldn't find a morning paper at that hour closer than Western and Wilshire. The story was on page.gardens. They felt subconsciously that it might be better to leave them alone in case they turned out to be. "I'm not the quixotic type." Why do we do it?. If clones can be produced wholesale, a biologist can have a whole group of animals with identical. "Before six-thirty?". Her pictures, though, did not do her justice. Not only was I surprised to find her taller than I. "We'll stop that sort of thinking right now. I'm tile mission commander. I appreciate you taking over while I was . . . how did you say it? Indisposed. But you should pay more attention to the social aspects of our situation. If anyone is a commodity here, it's you and Ralston, by virtue of your scarcity. There will be some thorny questions to resolve there, but for the meantime we will function as a unit, under my command. We'll do all we can to minimize social competition among the women for the men. That's the way it must be. Clear?". What was marvelous was the afternoon with Amanda clinging to my

arm and greeting each new offering with a sigh of pleasure or gasp of delicious dismay. In the course of it she stopped calling me Mr. Gordon, too, and began saying Matthew. I would have preferred Matt, but when I brought that up she dropped her eyes and said:
