transmission from the Battle Module." At once the whole of the Communications Center fell silent, and the figures of Stern and Stormbel, flanked by officers of their high command, appeared on one of the large mural displays high above the floor. Stern was looking cool and composed, but there was a mocking, triumphant gleam in his eyes; Stormbel was standing with his feet astride and his arms folded across his chest, his head upright, and his face devoid of expression, while the other officers stared ahead woodenly. After a few seconds, Wellesley, Lechat, and Borstein moved to the center of the floor and stood looking up at the screen.. "Good point," Noah said... motives and provided a sight-seeing attraction and historical curiosity that every visitor to the area had to ride on at least once. Veronica, a practicing architect, was there with Casey, Adam, and Barbara. Celia had declined to return to the ship but was watching from the home that she shared with Lechat - on the coast; and Wellesley had taken a trip from his farm in Occidena to see his old ship recommissioned and renamed.. Lechat pursed his lips for a second, and then nodded curtly. "It do it," he said simply. He averted his eyes for a moment longer, and then looked across at Celia. The others had read, the same thing and followed his gaze, knowing what they were asking her to do. Colman could see the torment in her eyes as she looked back at Lechat. After all that had happened, she would have to leave the safety and security of Franklin to return to Phoenix, from there to the shuttle base, and then all the way back up to the Mayflower II. There was no other way.. Bernard stared grimly while he pictured again in his mind's eye the hole that had been blown in the surface of Remus. "We've got. to stop it," he breathed. "We've got to get a message up there somehow. . . to Stern. . . telling him what he's up against. Thousands of people are still up there.".. than the giant rigs parked side by side on the blacktop. White cab, black canvas walls. The saddlery.. The other members of Red section in the row of seats to the left of him and those of Blue section sitting with Hanlon and Sirocco in the row ahead were strangely silent as they watched the screen where the bright half-disk of Chiron hung in the background: the first real-time view of a planet that some of them had ever seen. Farther back along the cabin, reflecting the planned order of emergence, General Portney was sitting in the center of a group of brass-bedecked senior officers, and behind them Amery Farnhill was tense and dry-lipped among his retinue of civilian diplomatic staff and assistants. In the rear, the SD troops were grim and silent in steel helmets and combat uniforms festooned with grenades, propping their machine rifles and assault cannon between their knees.. During her short walk, the electrical service had come on again. The wall clock glowed, but it displayed.. "What about Veronica?" she whispered.. "Nothing," Juanita said. "But why would they? Who'd take any notice of them?".. "Donella, don't be too hard on the kid. He didn't mean nothing by what he said. Nothing like you think.. Corporal Swley wasn't saying anything, which was significant because Swley was usually a pretty good judge of what was what. His silence meant that he didn't agree with what was being said. When Swley agreed with something, he said he didn't agree. When he really didn't agree, he said nothing. He never said he agreed with anything. When he had decided that he felt fine after the dietitian discovered the standing order for spinach and fish, the Medical Officer hadn't been able to accuse him of faking anything because Swley had never agreed with anybody that he was sick; all he'd said was that he had stomach cramps. The M.O. had diagnosed that anybody with stomach cramps on his own time had to be sick. Swley hadn't. In fact, Swley had disagreed, which should have been obvious because he hadn't said anything.. Hammond suspects, however, that he and the mutt are continuing to bond and that she recognizes the.. something sophisticated and classy and smart. She liked things that weren't what they seemed to be.., of seeing that make the night as penetrable as daylight.. passing-for-nobody-special business. He hasn't given a thought to naming his four-legged companion.., the house across the street and being greeted at the door by his lover. If Noah reached for the camera.., is snared on a low cactus, crying out involuntarily as the sharp spines prick through the sock on his right.. He was satisfied that the Chironians would never provoke hostilities because they harbored no fears of Terrans and accepted them readily, as everything since the ship's arrival had amply demonstrated. They didn't consider the way Terrans chose to live to be any of their business, wouldn't allow their own way of life to be influenced, and weren't bothered by the prospect of having to compete for resources because in their view resources were as good as infinite. But he felt less reassured about the Terrans- at least some of them. Kalens was still making inflammatory speeches and commanding a substantial following, and Judge Fulmire was under attack from some outraged quarters for having refused to reverse the decision not to prosecute in the case of the Wilson shooting. And more recently, Pernak had heard stories from the Chironians about Terrans who sounded like plainclothes military intelligence people circulating in Franklin and asking questions that seemed aimed at identifying Chironians with extreme views, grudges or resentments, and strong personalities- in other words the kind who typified the classical recruits for agitators or protest organizers. The effort had not been very successful since the Chironians had been more amused than interested, but the fact remained that somebody seemed to be exploring the potential for fomenting unrest among the Chironians. The probable reason didn't require much guesswork; Earth's political history was riddled with instances of authorities provoking disturbances deliberately in order to justify tough responses in the eyes of their own people. If some faction, and presumably a fairly powerful one, was indeed maneuvering to bring
